

Year 4 Debate: “Do Ghosts Exist?”

Today Year 4 had a debate on whether ghosts are real or not. They were split up into two groups.

One group said they believed in ghosts and the other side were the children who didn't. They had to come up with ideas and think about what they would say in the debate.

After that they moved the chairs and then picked two people each to represent the groups and to say what they thought about if they believed in ghosts or not.

Mrs Waugh was the Chairperson. When they had finished speaking the rest of the class asked questions to the people at the front, passing the microphone round like a T.V. show! At the end they had to decide which team is the most believable and their vote went on the board.

Everybody spoke really well and had come up with some good points for each side of the debate. The winners were the people who were saying they did believe in ghosts!!!..... Year 4 had a great time doing their first ever debate!
